Wizard of Odds on PlayNow.com

WIZARD OF ODDS ON PLAYNOW.COM:

Wizard of Odds is a 5-reel, 20-line online video reel game with three bonus features. The “Wild” symbol is wild and substitutes for all symbols except “Wizard’s Hat”, “Spellbook” and “Cauldron” symbols. All winning combinations must occur on adjacent reels, starting from the leftmost reel. Only the highest award is paid for each winning line.

All awards from the bonus features are paid in addition to line wins.

The Cauldron bonus

The ‘Cauldron Bonus’ is triggered when 3 “Cauldron” symbols appear anywhere on reels 1, 3 and 5. The player will be taken to a second screen and instructed to pick a series of potion bottles. As they are emptied into the cauldron, the player is awarded a prize for each bottle. If the liquid in the cauldron explodes, the player is awarded the progressive jackpot.

Progressive jackpot

The progressive jackpot consists of a fixed minimum amount which gradually increases by a percentage of funds inputted into the game until the jackpot is won. When the jackpot is won, it is reset to the seed amount and begins to rise again.

In the Wizard of Odds, the Jackpot can only be won in the Cauldron feature of the Wizard of Odds. There is a chance that the final potion added into the cauldron will make it explode. If this happens then the progressive jackpot is awarded.
