

1. SPORTS BETTING GAME CONDITIONS

The following PlayNow Pools Game Conditions are governed by the General Rules Respecting Lottery Schemes of British Columbia Lottery Corporation ("**BCLC**"), which include other rules and limitations of liability and are available at bclc.com/rules. In the event of inconsistency between the PlayNow Sports Betting Game Conditions and these PlayNow Pools Game Conditions, these PlayNow Pool Game Conditions will apply.

2. DEFINITIONS

Definitions in the PlayNow Sports Betting Game Conditions have the same meaning in these PlayNow Pools Game Conditions. Further, in these PlayNow Pools Game Conditions:

- (a) "Card" means the online form, provided by BCLC, listing Events that enable a Player to enter a Pool by completing such form and making payment as required;
- (b) "Combo Play" means a method of play whereby a Player concurrently submits multiple entries into a Pool in a single transaction by selecting more than one Pick on the same Event within a Card with each such Pick being assigned to a distinct entry into the Pool;
- (c) "Prize Pool" means the prizing available for an individual Pool.;
- (d) "Pick" means the selected outcome of an Event on a Card;
- (e) "Pool" means a betting or promotional offering where Players may make Picks of outcomes on a set number of Events on a Card in order to enter for a chance to win all or a portion of the Prize Pool;
- (f) "Pool Closing Time" means the date and time on which a Player can no longer submit a Card in order to enter a Pool;
- (g) "Play Instructions" means such instructions on how to participate in a Pool, including where applicable Prize entitlements relating to a specific Pool as established and posted on PlayNow.com by BCLC;
- (h) "Quick Pick" is an optional auto-populate function that will automatically select a random combination of Picks on the Player's behalf; and
- (i) "Cost per Card" is an optional function that gives Players the ability to wager an amount that is a multiple (or an amount otherwise determined by BCLC) of the minimum stake per completed Pools Ticket or Card.
- (j) "Winner" means a Player who meets the criteria to win all or a portion of the Prize Pool in accordance with these PlayNow Pools Game Conditions.

3. PLAYNOW POOLS TERMS AND CONDITIONS

The following terms and conditions and sport specific rules apply to all PlayNow Pools unless otherwise stated in the applicable Play Instructions.

Pool Entry

To participate in a Pool, a Player must pay the entrance fee (where required) for that Pool as set out in the applicable Play Instructions and submit a Card for that Pool including selecting a Pick for each listed Event. Sports freebets/tokens cannot be used for PlayNow Pools entries. Players may purchase and submit more than one entry per Pool, subject to maximum entry limits that may be established in the applicable Play Instructions. The Player must select one Pick from each Event on the Card for a valid entry, though in the case of Combo Play more than one Pick may be selected creating multiple entries. Once a Player has submitted their Card and received a Ticket, the Player cannot alter or change their Picks. Where BCLC determines that a Player entered a Pool after an Event in that Pool commenced, BCLC reserves the right to void that Pool entry.

Pool Closing Time

The Pool Closing Time will be the earliest scheduled start time for an Event included in the pool, or as otherwise set out in the Play Instructions. BCLC may change the Pool Closing Time to account for any applicable changes to the start time of an Event.

Combo Play

As an example of Combo Play, if a Player selects two Picks for the same Event using Combo Play (ie. Pick "A" and Pick "B") for a Pool with a \$5 entrance fee, the Player will have two potential entries, one based on Pick "A" and the other based on Pick "B", with a total cost for the Ticket of \$10. When Combo Play is offered by BCLC, the number of Events for which multiple Picks can be selected may be limited as set out in the applicable Play Instructions. Entries created through Combo Play will be settled under a single Ticket number in the Player's account history.

Correct Picks

A correct Pick is the selection that corresponds to the winner of the listed Event, or as otherwise set out in the Play Instructions.

Subject to the applicable Play Instructions, a correct Pick will be determined by BCLC with reference to the PlayNow Sports Betting Game Conditions that are applicable to the Settlement of the Pick in question as determined by BCLC. Picks are Settled on the official result published by the governing body or as otherwise verified by BCLC. After Settlement of a Pool and corresponding payment of the Prize Pool by BCLC, any subsequent corrections or amendments by the governing body to the result will not be applicable.

Where BCLC determines that an error was made, including on the Play Instructions, the Pool Card (including errors in listings of Events or Picks) or in the Settlement of a Pool, then BCLC reserves the right to:

- (a) correct such error and Settle or Resettle the entire Pool; or
- (b) if BCLC determines that certain Picks for Events were affected by the error, Settle those Picks as correct Picks.

Ties

In the case of a tie result on any Event whereby neither available Selection for that Event is the correct result (i.e. a Tie result is not offered as a Selection) the outcome of all Selections for that Event will be Settled as a correct Pick unless stated otherwise in the applicable Play Instructions.

In the occurrence of a tie result on any Event whereby multiple Selections for that Event are the correct result, the outcome of those Selections for that Event will be settled as a correct Pick unless stated otherwise in the Play Instructions.

Determining Winners

Winners of the Prize Pool will be those Players with Cards that have the amount of correct Picks as set out in the applicable Play Instructions. Winners will share the portion of the Prize Pool allocated to them as set out in the applicable Play Instructions, subject to the conditions set out above for determining correct Picks.

Event Postponement, Cancellation, or Void Events

A minimum of 5 Events on the Card must be played and completed or the Pool will be cancelled and all entry amounts refunded to Players, unless otherwise set out in the Play Instructions.

If BCLC determines an Event has been cancelled or postponed or where BCLC would otherwise have the right to treat an Event as void, BCLC reserves the right to Settle the Pool with all Picks for such cancelled or postponed Events as a correct Pick or, alternatively, to void all Tickets on that Pool. BCLC may continue to offer Picks including when applicable, Combo Play Picks, on such Events even if it has become aware of the cancellation, postponement or voiding of the Event, while reserving its rights to Settle the Pool with all such Picks as correct or, alternatively, voiding all Tickets on that Pool.

Where there is evidence or suspicion of illegal or fraudulent activity, or of rigging or fixing of an Event within a Pool, BCLC may declare Picks or Tickets on such Events or Pools void in addition to its rights set out in the PlayNow Sports Betting Game Conditions dealing with fraud or suspicious activity, event rigging or fixing.

For clarity, if the start time for an Event within a Pool is changed by the official governing body within the same Calendar Day as the previous listed start time, either prior to or after the Pool Closing Time, submitted Cards will remain valid.

PlayNow Pools Game Conditions

Tiered Pricing

Where there are tiered Prize levels for a Pool, the number of correct Picks on the Pools Card for each Prize level will be set out in the Play Instructions.

Cost Per Card

A winning Ticket with the Cost per Card option selected grants the Player an additional winning share of the overall Prize Pool proportionate to the Cost per Card options selected. For example, if a Pool costs \$10 to enter and a \$20 Cost per Card option is selected, this will entitle the player to two shares of the Prize Pool if the Ticket purchased by that player is a winning Ticket for that Prize Pool.

Prizes

BCLC will pay out the Prize Pool or portion thereof, to Winners in accordance with the Prize structure as set out in the applicable Play Instructions.

The total Prize Pool for any given Pool comprises 80% of the total amount of entry fees for that Pool, plus any rollover Prize Pool amounts from prior Pools if applicable, or as otherwise set out in the Play Instructions.

Guaranteed Prize Fund

BCLC may, at its sole discretion, guarantee a minimum Prize fund for a Pool by adding to the Prize Pool as set out in the Play Instructions. Pools do not have a guaranteed Prize Pool unless otherwise stated in the applicable Play Instructions.

Limits/Maximum Payouts

The Limits/Maximum Daily Payouts outlined in the PlayNow Sports Betting Game Conditions do not apply to Pools. There is no set daily Payout Limit for Pools; nor does any winning affect the daily Payout Maximums from any other winnings from sports bets.

Related Contingencies (correlated bets)

Those provisions dealing with related contingencies (correlated bets) in the PlayNow Sports Betting Game Conditions do not apply to Pools.

Rollovers

If there are no Winners for a given Pool, then BCLC may in its discretion, rollover the Prize Pool for that Pool (i.e. Pool "A") to a Prize Pool for another Pool (i.e. Pool "B"). Details of any potential rollover of a Prize Pool will be specified in the relevant Play Instructions. If BCLC rolls over the Prize Pool for Pool "A" to the Prize Pool for Pool "B" and Pool "B" then ends without any Winner(s), then the Prize Pool for Pool "A" will either be rolled over as part of a rollover of the Prize Pool for Pool "B" to another Pool (i.e. Pool "C") in accordance with Pool "B's" Play Instructions, or failing that, the Prize Pool for Pool "A" will be paid out by BCLC to players in proportion to their contribution to the Prize Pool for Pool "A". A Prize Pool may be rolled over through numerous Pools until either there is a Winner(s), or the Prize Pool is paid out to players in proportion to their contribution.

4. SPORTS-SPECIFIC TERMS

Applicable Sports-Specific Terms under Schedule B of the PlayNow Sports Betting Game Conditions will apply to the Settlement of Events as determined by BCLC. In addition:

Baseball

- (a) An Event that is based on the outcome of more than one game including a series of games or other group of games as described in the Card is considered complete when the group or series of games are completed. An Event that is based on a match-up between specific players' performances is considered complete when the inning(s), game or series of games the Event is associated with, as set out in the Card, are completed.
- (b) Where an Event is based on a match-up between specific players' batting performances in an inning(s), game or series of games as set out in the Card, such players must each make at least one completed plate appearance in applicable inning(s), game or series of games, which results in either an 'out' for that player, or in that player reaching a base safely (in any number of possible ways in accordance with the game of baseball), failing which all Picks for such Event will be Settled as a correct Pick.
- (c) Where an Event is based on a matchup between specific players' pitching performances in an inning(s), game or series of games as set out in the Card, such players must make at least one pitch, within the applicable inning(s), game or series of games failing which all Picks for such Event will be Settled as a correct Pick.
- (d) When two games between the same two teams are played in one day, the Event start time listed on the Pools Card will determine what the appropriate game is for Settlement purposes.

Basketball

- (a) An Event that is based on the outcome of more than one game, including a series of games or other group of games as described in the Card, is considered complete when the group or series of games are completed. An Event that is based on a match-up between specific players' performances is considered complete when the quarter, half, game or series of games the Event is associated with, as set out in the Card, are completed.
- (b) Where an Event is based on a match-up between specific players' performances in a quarter, half, game or series of games as set out in

the Card, such players must have playing time within the applicable quarter, half, game or series of games, failing which all Picks for such Event will be Settled as a correct Pick.

Football

- (a) An Event that is based on the outcome of more than one game, including a series of games or other group of games as described in the Card, is considered complete when the group or series of games are completed. An Event that is based on a match-up between specific players' performances is considered complete when the quarter, half, game or series of games the Event is associated with, as set out in the Card, are completed.

Where an Event is based on a match-up between specific players' performances in a quarter, half, game or series of games as set out in the Card, such players must have played at least one down within the applicable quarter, half, game or series of games, failing which all Picks for such Event will be Settled as a correct Pick.

Hockey

- (a) An Event that is based on the outcome of more than one game, including a series of games or other group of games as described in the Card, is considered complete when the group or series of games are completed. An Event that is based on a match-up between specific players' performances is considered complete when the period, game or series of games the Event is associated with, as set out in the Card, are completed.
- (b) Where an Event is based on a match-up between specific players' performances in a period, game, or series of games as set out in the Card, such players must have ice time within the applicable period, games, or series of games, failing which all Picks for such Event will be Settled as a correct Pick.

Boxing & MMA

- (a) An Event that is based on a match-up between specific competitors' performances is considered complete when the round, fight or series of fights the Event is associated with, as set out in the Card, are completed.
- (b) Where an Event is based on a match-up between specific competitors' performances in a round, fight or series of fights as set out in the Card, such competitors must participate within the applicable round, fight, or series of fights, failing which all Picks for such Event will be settled as a correct Pick.
