Martin Lampman
Director Customer Support Operations
74 West Seymour Street
Kamloops, BC, V2C 1E2

Dear Mr. Lampman,

Re: IVR – Call Escalation Process Control Design Review

Attached is Audit Services' report on the IVR – Call Escalation Process Control Design Review.

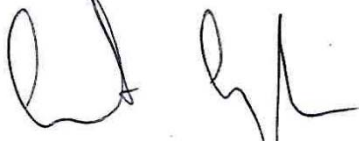

Our control design review focused on call handling and documentation, privacy, technical controls, call escalation and follow-up, call resolution and quality reviews.

Audit Services flowcharted the call escalation process and developed a controls matrix as part of the controls framework for the Customer Support Operations. We also reviewed sample of integrity related call cases to determine if they are appropriately classified, consistently escalated and resolved.

Based on our control design review, we noted that sufficient controls are in place to mitigate any significant risks. We also noted that sampled integrity-related call cases are appropriately classified, consistently escalated and resolved.

We thank management and staff of the Customer Support Operations for their cooperation and assistance during this review.

Sincerely,

Gurmit Aujla CPA, CA, CIA, CRISC, CRMA
Director, Internal Audit

cc: Susan Dolinski, VP Social Responsibility and Communication

Introduction

The Call Escalation process was upgraded to a new Interactive Voice Response (IVR) System in March 2016. Management requested Audit Services to review and document the new processes, controls and potential risk areas. The IVR Call Escalation Process consists of integrated systems designed to manage and document interactions between BCLC customers and Customer Support agents. Screen and voice interactions are recorded in a Telus Cloud Contact Centre and actions, escalations and resolutions are documented in Salesforce system.

We completed the review of the current IVR Call Escalation control environment as part of our FY2018 audit plan.

Statement of Objective

The objectives of this engagement were to assess the overall IVR call escalation process control design environment, specifically to:

- Understand and document the current state of the Call Escalation Process;
- Identify key risks and controls;
- Identify areas for improvements;
- Assess whether calls are appropriately classified, consistently escalated and resolved.

Statement of Scope

The scope of this engagement includes the current IVR call escalation process that focused on:

- Call handling and documentation
- Privacy
- Technical controls
- Call escalation, follow-up and resolution
- Quality reviews

Our scope also includes selected sample of integrity related call cases for review.

Statement of Methodology

Audit Services shall perform the following tasks:

- Flowchart and document the processes under review
- Develop a controls framework/matrix
- Identify and report opportunities for improvements
- Sample review of received and processed calls

Statement of Audit Standards

We conducted our engagement in accordance with professional standards issued by the Institute of Internal Auditors. Those standards require that we plan and perform the audit to afford a reasonable basis for our judgments and conclusions regarding the organization, program, activity or function under audit. An audit also includes assessments of applicable internal controls and compliance with requirements of laws, rules and regulations when necessary to satisfy the audit objectives. We believe that our audit provides a reasonable basis for our conclusions.

Conclusion

Based on our review, we noted that sufficient controls are in place to mitigate any significant risks. We also noted that sampled integrity-related call cases are appropriately classified, consistently escalated and resolved.

Acknowledgement

We wish to thank management and staff for their participation, assistance and cooperation during this review. Audit Services was given full access to all resources and information required to complete this engagement.

Dear Mr. Pieper,

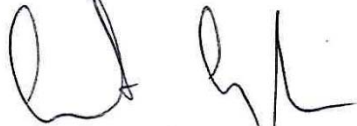

Re: Return to Player (RTP) Audit – Chances Salmon Arm

Attached is Audit Services' audit report on the RTP testing which occurred at Chances Salmon Arm on August 16, 2018. The scope of our audit focused specifically on the RTP settings at Chances Salmon Arm for a selected sample of slot machines.

During the course of our work conducted at Chances Salmon Arm, we noted that all 50 slot machines tested had their RTP settings set correctly. In total, Chances Salmon Arm has 103 slot machines.

We would like to thank management and staff of Chances Salmon Arm for their cooperation and assistance during this audit.

Sincerely,

Gurmit Aujla, CPA, CA, CIA, CRISC, CRMA
Director, Internal Audit

cc: Kevin Sweeney, Director Security, Privacy and Compliance
Tom Maryschak, Senior Manager Casino Operations
Ken Bach, Regional Manager
Trevor Sharkey, Manager, Business Operations

Introduction

RTP Slot Management audit was included in Audit Services' approved audit plan for fiscal 2018-2019. These audits are to ensure the settings were set correctly based on information provided by the Casino and Community Gaming Product Team. RTP is the term the gaming industry uses to describe the percentage of all the wagered money a slot machine will pay back to players over time.

Statement of Objectives

Audit Services' objective through this engagement was to test the RTP settings at Chances Salmon Arm on randomly selected slot machines. The machines' current RTP settings were compared to the master data information looking for any discrepancies.

Statement of Scope

This audit is one component of several RTP audits scheduled to occur each fiscal quarter. The scope of these engagements includes the review of slot machine settings at various casinos and CGCs in the province for the period April 1, 2018 to March 31, 2019.

Statement of Methodology

Our methodology and approach included:

- Tested RTPs of randomly selected slot machines
- Confirmed/matched the RTP from slot machines to Master Data; rCasino database and/or Probability Accounting Reports (PAR) sheets (a PAR sheet details how a particular slot machine is programmed)
- Interviews & inquiries
- Identified process weaknesses, risks and controls

Statement of Audit Standards

We conducted our audit in accordance with professional standards issued by the Institute of Internal Auditors. Those standards require that we plan and perform the audit to afford a reasonable basis for our judgments and conclusions regarding the organization, program, activity or function under audit. An audit also includes assessments of applicable internal controls and compliance with requirements of laws, rules and regulations when necessary to satisfy the audit objectives. We believe that our audit provides a reasonable basis for our conclusions.

Personnel Changes in Key Control Areas

BCLC's Audit Committee has requested that Audit Services include information about personnel changes and vacancies to key control areas during audit engagements. Personnel changes and vacancies can impact the control environment, control effectiveness, and loss of knowledge. At Chances Salmon Arm, the BCLC staffing component consists of a Manager Business Operations and a Technician. We noted during this audit, that the BCLC staff at Chances Salmon Arm has a minimal staff turnover rate.

Conclusion

Audit Services found no RTP exceptions in the 50 machines tested on August 16, 2018.

Acknowledgements

We wish to thank management and staff for their participation, assistance and cooperation during this audit. Audit Services was given full access to all resources and information required to complete this audit.

Dear Mr. Pieper,

Re: Return to Player (RTP) Audit – Casino Nanaimo

Attached is Audit Services' audit report on the RTP testing which occurred at Casino Nanaimo on August 20, 2018. The scope of our audit focused specifically on the RTP settings at Casino Nanaimo for a selected sample of slot machines.

Casino Nanaimo has 436 slot machines in total. Audit Services noted one error in RTP settings during the testing of 105 slot machines on August 20, 2018. The Senior Technician corrected the setting immediately on August 20, 2018. Audit Services investigated the possible root cause of the exception and discussed with Casino Operation Management. We also plan to perform further testing on Casino Nanaimo within the next quarter.

We would like to thank management and staff of Casino Nanaimo for their cooperation and assistance during this audit.

Sincerely,

Gurmit Aujla, CPA, CA, CIA, CRISC, CRMA

Statement of Audit Standards

We conducted our audit in accordance with professional standards issued by the Institute of Internal Auditors. Those standards require that we plan and perform the audit to afford a reasonable basis for our judgments and conclusions regarding the organization, program, activity or function under audit. An audit also includes assessments of applicable internal controls and compliance with requirements of laws, rules and regulations when necessary to satisfy the audit objectives. We believe that our audit provides a reasonable basis for our conclusions.

Personnel Changes in Key Control Areas

BCLC's Audit Committee has requested that Audit Services include information about personnel changes and vacancies to key control areas during audit engagements. Personnel changes and vacancies can impact the control environment, control effectiveness, and loss of knowledge. At Casino Nanaimo, the BCLC staffing component consists of a Manager of Business Operations, one Senior Technician and two Technicians. We noted during this audit, that the BCLC staff at Casino Nanaimo has a minimal staff turnover rate.

Conclusion

Audit Services noted one exception out of the 105 machines tested on August 20, 2018. The Senior Technician corrected the RTP setting immediately on the day the exception was noted. Audit Services investigated the possible root cause of the exception and discussed with Casino Operation Management. We also plan to perform further testing on Casino Nanaimo within the next quarter.

Acknowledgements

We wish to thank management and staff for their participation, assistance and cooperation during this audit. Audit Services was given full access to all resources and information required to complete this audit.
