British Columbia's Casino, Community Gaming and Bingo Facility Gambling Operations Model

Under the *Gaming Control Act* (B.C.), BCLC's mandate is to conduct, manage and operate commercial gambling on behalf of the Government of British Columbia. BCLC enters into Operational Services Agreements (OSAs) with private-sector service providers which – under BCLC's contract – finance, build, and operate gambling facilities including casinos, community gaming centres and bingo halls.

The current OSA structure, approved by B.C.'s Attorney General in November 2017, is a 20-year agreement that defines the service and operating responsibilities of service providers, as well as the following commissions:

Casino Games

- 25 per cent of net win from slots
- 77.5 per cent of rake from poker and of net win from craps
- 62.5 per cent of net win from low-limit blackjack
- 40 per cent of net win from high-limit table games (except for high-limit craps, which is 75 per cent of net win)
- 42.5 per cent of net win from all other table games

Bingo Games

- 90 per cent of bingo sales (after prizes are paid) on the first \$10,000 per week
- 45 per cent of bingo sales (after prizes are paid) greater than \$10,000 per week

The terms of the OSA require service providers to submit annual business plans that include commitments to capital and operating investments in properties over the term of the contract. In addition, through a Facility Investment Commission (FIC) program, service providers can earn commissions based on the execution of an investment plan agreed upon at the time of signing the current OSA.

OSAs provide a framework for BCLC to hold service providers accountable for investment commitments and service standards that drive growth and new amenities, while supporting the health of our players. They also includes accountability measures that support BCLC's oversight in the areas of compliance and security, including escalation mechanisms and progressive discipline measures.

¹ International Financial Reporting Standards (IFRS) 15 Revenue from Contracts with Customers and 9 Financial Instruments were effective for annual reporting periods beginning on or after January 1, 2019. BCLC adopted these standards for its fiscal year ending March 31, 2019. As a result, bingo revenue is now presented net of prizes on its statement of comprehensive income. There was no impact on the commission paid to service providers or net income to government as a result of this presentation change. However, revenue for bingo games, and therefore total revenue for gaming facilities with bingo, was presented differently on reports for Fiscal 2017/18 and prior.

^{2&3} In fiscal year 2019/20, some service providers still contracted with BCLC under a previous OSA which included a three per cent Facility Development Commission (FDC) and two per cent Accelerated Facility Development Commission (AFDC) which was replaced by the FIC. Sites with no FDC Earned were on the current OSA agreement throughout Fiscal 2019/20.

⁴ No FIC was earned in the year for sites still governed by the previous OSA.

⁵ Chances Prince Rupert signed the current OSA effective April 28, 2019.
